FEMALE ROBBERS.

Six Young Women, in Male Attire, Carry on a Successful Stage Robbing Business.

SALMON CITY, Idaho, April 1. A few days ago the fact of numerous stage hold-ups in this section of the country was noted, and the belief expressed that sensational developments would follow the working of a time which the sheriff was following. These developments have come, and there men board with the sheriff a man and seven women, or rather one woman and six girls. The belief was strong that old man Harvey and his family were responsible for the numerous robberies, and this belief has now become a certainty, for the girls were caught in the act by a clever scheme worked by the officials. It was found that the stages were robbed on the side of Harvey's, from that ranch after they had left there. An eastgoing stage would be robbed east of Harvey's, while a west going one would be held up on this side. The sheriff concluded that the old man and his girls had more to do with this than any one else, and so set a trap which worked well. There were certain spots along the road where the robberies were done, and in one of these places the sheriff, with ten men, waited while the stage stopped at the house, the driver being previously instructed to betray fear of robbery because he carried a money box. The bait took, and when the stage people were eating dinner the girls disappeared, and soon the sheriff and his party in ambush saw six young men sneak into the little cayon and hide themselves close to the road. When the stage came along the bandits went forth and stopped it at the point of their guns, but the sheriff was also there and took in the whole gang, which proved to be composed of the girls who had left the house. When the arrest was made, one of the girls weakened and told the whole story. She said she never liked the work and was glad they were caught. They were trained to it by their father and mother and the proceeds were shipped east for sale, so as not to excite suspicion in the country.

A BULLET IN HIS BODY.

Borrowe Have Mysterious Experience in California.

SAN FRANCISCO, April 4.—Borrowe, the mutual friend of the Drayton family, had a California experience that is shrouded in some mystery and carried a bullet about with him in his anatomy for several days. Two years ago he came around the Horn from New York on the invitation of Harold LeBreton, brother of Mrs. Langtry, to spend the summer and fall at her ranch in Lake county. He had a quarrel with the mate of the ship, but no gore was spilled. On the ranch he was welcomed by LeBreton and by Harry Oelrichs, of New York. They wore pyjamas in the heat of the day and at night attended all rural dances and merry makings. Suddenly there was trouble, but just what its nature was cannot be learned as there familiar with the facts will not tell them. At any rate Borrowe left between two days His friend, LeBreton, was his constant ministrant during the drive to the railroad at Calistoga. The stay in San Francisco was short and the weather as leaden as the bullet in Borrowe's body. There was no explanation given by Borrowe to the effect that his revolver had exploded accidentally in a Middletown hotel barroom, but Lake county laughed at the idea.

TIMOTHY HOPKINS

Presents the Stanford University With a Valuable Library.

SAN FRANCISCO, March 4.—Timothy Hopkins, who resigned the treasurership of the Southern Pacific railroad, marked his retirement from railroad work by giving to Stanford university, 1,000 volumes and 1,000 pamphlets on the history of railroading in the world, with money to increase the collection. Lawyer Stillman, of New York, representing Searles, is here, and Huntington will arrive tomorrow. The annual meeting will be held Wednesday. Stanford will be on hand and in case Stillman and Huntington carry things with too high a hand there will be a livelier scene than two years ago. It is rumored that Huntington wants the treasurership of the Southern Pacific for his favorite nephew, H. E. Huntington, whom he intends to make general manager of the great Southern Pacific when Mr Towne retires.

MURDERER IDENTIFIED.

The Man Who Shot Sheriff Smith Was a Baptist Minister.

DOVER, N. H., April 4.- The picture of John Arthur Simpson, alias George Simpson, alias George A. Stilwell, formerly of Fredrickton, N. B., once a Baptist minister, later a burglar, horse thief, incendiary, forger, bigamist, and finally a murderer, has been identified as that of Julius McArthur, who killed Deputy Sheriff Charles H. Smith, of New Hampshire, May 16, 1891, while resisting arrest for stealing a horse, and who escaped from jail in this city July 17, 1891. McArthur is supposed to have gone west. He is a remarkably fluent talker. He can preach a sermon, make a prayer, or deliver a practical oration in a manner to win him compliments, while his education and natural judgment enable him, where his record is not known, to gain consideration as a polished gentleman.

ELECTION DAY.

Ohio New Fishing Over Her Municipal Offices.

TOLEDO, Ohio, April 4—Election day opened with a heavy rain, but cleared away by 10 o'clock. Voting appears to be light all over the city thus far. The principal contest is for police commissioner. Both sides claim the result will be in their favor There is much cutting on the ward tickets, but there are no grounds at this time to predict what the result will be.

THE LIST INCREASES.

Late Reports From the Scenes of the Great Western Storm Swell the Fatalities Enormously.

KANSAS CITY, April 4.—As the telegraph service is being re-established through the storm swept district of Kansas many strange stories are being brought in about the freaks of the wind which caused so much devastation all over the western part of the state The list of dead and injured is increasing with every new report received, and it is now estimated that the list of fatalities will reach sixty within the state borders, while three are reported killed at Oklahoma In most instances those who were killed died instantly from being struck by flying debris, and in only three or four cases were the deaths lingering The hundreds who were injured have principally broken limbs and severe contusions In very few cases will the injuries prove fatal, although many victims were compelled to lie all night in the soaking rain which followed the storm. A son of Wm Eggers, in Butler county, was taken from his father's arms by the force of the wind and dashed to death against a tree in front of the horrified parents, while the father barely felt the force of the wind James Wilson, in Greenwood county, was caught up by the tornado carried through the air and forced against the side of a barn, where a scantling was run through his body. He was pinned to the barn eight feet from the ground and died in horrible agony. At Dalton the house of Wm Little was crushed, he and his four children being killed and his wife badly injured About fifty persons were injured and as yet it is impossible to make any estimate of the damage to property Hundreds of people are homeless and many families have lost all they possessed. Relief meetings are being called in neighboring cities.

KANSAS CITY, Mo, April 4.—Dispatches from the west indicate that another cyclone threatens Kansas. The barometer has fallen to the lowest point ever known in this section and dispatches from Denver say that a storm is raging there

MINNEAPOLIS, April 4.—Dispatches to the Journal report a blizzard in the northwest At Miller, S. D., rain, snow and hail have fallen steadily for twenty-four hours, filling creeks to overflowing. At Crookston, Minn., a blizzard from the northwest is blowing hard Five inches of snow has fallen during the night

CLEVELAND, Ohio, April 4.—A dispatch from Wheeling, W. Va., states that a terrific hail storm struck Ohio county, W. Va., and Belmont and Jefferson counties in Ohio last night, doing over $100,000 damage to buildings and stock.

The father of the dead boy is well known in Fort Wayne. For many years, up to three years ago, he was employed in the Pittsburg planing mills.

FAIR PLAY!

Is What Senator Voorhees Wants for Ex-Governor Gray—His Views on the Situation.

WASHINGTON, April 4—Senator Voorhees does not approve of the turn politics have taken in Indiana and he does not believe that ex-Governor Gray has been properly treated in every respect In an interview Senator Voorhees said:

"If I say anything at all at this time, it is only with the hope of promoting peace and harmony in the party I have been in political life a good while, but have never been in the slightest degree connected with a factional fight, and I never will be. Fidelity to the principles of the democratic party, fidelity to party associates and fair play all around the board have thus far guided me in my course and will guide me to the end

"We have a hard, and, in many respects, an unequal contest before us in the approaching presidential campaign The power of money in the hands of the protected monopolies is simply enormous and appalling, and it will be brought to bear with crushing force against the cause of tariff reform and the interests of the laboring people We can have no friction, contention or bitterness among ourselves with any hope of success I think the attempt to change front in Indiana in regard to Governor Gray as a candidate for the presidency is unfortunate For a year past he has been recognized and put forward by our people, and especially by our leading newspapers, as the candidate of our state, and there is no more reason now, so far as I can see, for denying him that honor than at any time heretofore. If the Indiana democracy is in favor of nominating Mr. Cleveland, that fact can be made known and that result accomplished at the proper time without humiliating Governor Gray and offending his friends. The movement to displace him as a candidate is a needless element of irritation even if he is not to receive the nomination at Chicago. But who, in all the Mississippi valley and throughout the northwestern states, deserves better of his party, and especially in his own state, than Isaac P. Gray? He has fought his battles well and proved himself a winner in a doubtful state He has never faltered in the face of the enemy. I know no better, truer, braver democrat in Indiana, or in any other state than he is. Always on the picket line, under constant fire, and with a record as governor equal to any in the history of the state, would seem to be enough to insure him fair play and generous recognition at the hands of the democratic party. I have not a word of unkindness or censure for those who differ with me in regard to this matter. I have the highest respect and the kindest regard for them all, but I sincerely hope they will reconsider the matter, and, in the spirit of harmony and fairness, join at our state convention in giving the vote of Indiana at Chicago to Isaac P. Gray."

HIGH WATERS.

The Heavy Rainfall Causes Much Damage—The Streams Swollen Beyond Their Banks.

Many reports are coming in of damage done by the heavy rainfall of Sunday and Sunday night Streams are swollen until the roaring floods have burst over the banks at many places and covered surrounding country. The city flats and a number of buildings in the vicinity are submerged, while farther out into the country, especially among the low lands, almost entire farms are covered by water In the city a number of sewers were insufficient to carry off the water, causing it to back up into many cellars The Hanna street sewer sandpits south of the railroad, were washed away High street and St. Mary's avenue were submerged and crossings carried away A special watchman patroled that vicinity last night to warn people of the danger, and the highways could not be traveled. Lakeside is all right, the flood being at its highest within eight feet of the top of the heavy protecting embankment. The old reunion grounds and several buildings on it are submerged. At the old Main street bridge site waters of the rushing flood flowed above the middle pier which had been left standing. This being the vicinity of the junction of three rivers, the water has great force there

Yesterday and last night the Lafayette street crossing of the Wabash road was almost impassable, so deep was the water. This nuisance could easily be abated by running a sewer from the east side of Lafayette street to the sand pits near by, and it is the duty of the Wabash company to do the work Councilman Schiel was looking over the ground this morning and will see that a proper drain is constructed at once The officials of the road promised to have the work done last fall, but failed to keep their word.

The citizens of the Seventh and Tenth wards are pretty near unanimous in their demand for a sewer out that way Councilman C. F. Meyer said to a SENTINEL reporter this morning that yesterday's storm very forcibly demonstrated the necessity of drainage of some kind. Every cellar in his neighborhood was flooded as were also the streets and sidewalks in many places. One citizen living on Pontiac street applied to Mr. Meyers for permission to cut a trench across that thoroughfare to drain his barn He stated that his horses were standing knee deep in water in their stalls. Other barns and yards were flooded all day yesterday and the people are loud in their demands for protection against future floods. A petition is now in circulation asking the city council to build a sewer, such as was outlined in THE SENTINEL a few days ago A committee to investigate the matter of a new sewer will meet some time the present week.

DEATH IN THE RIVER.

John J. Wiel Meets His Death Near New Haven.

Last Saturday afternoon, in the Maumee river, near New Haven, the body of a man, who was afterwards identified as John J. Wiel, of this city, was found Coroner Kesler was notified and the deceased was brought to this city and left at Peltier's undertaking rooms, from which place the funeral occurred this afternoon. Wiel was a young man about twenty-five years of age. He was a half brother of George Wiel, 314 Broadway, and was formerly employed at the electric light works. Being out of work, he left about eight weeks ago and nothing more was heard of him until the news of his death was received. He was a member of Goethe lodge, K of P, this city, and on his body was found a K. P. badge which he always wore. He also had in his vest pocket a sixty-five minute watch answering precisely to the one worn by the Wiel of this city. When he left this city he left behind a buxom young German girl to whom he was engaged to be married. It is thought that he fell into the river while he was crossing the railroad bridge His body was considerably decomposed when found

HEROES OF THE WAR!

Grand Annual Encampment of the G. A. R. to be Held in This City, Commencing Tomorrow.

Tomorrow Fort Wayne will open wide her gates to welcome the hosts of the Grand Army of the Republic, who are coming here to attend the annual encampment, and a right royal welcome it will be. The G A R posts of this city, through their representatives composing the "encampment committee," have been preparing for the event for weeks, leaving nothing undone that might contribute to its success, until today there is not a G A R. man in the city who is not imbued with a feeling of pride over the fair prospect for this important meeting Tomorrow the Summit City will be her proudest. Not a flagstaff but will float the grand old stars and stripes. Not a business building but will wear its garb of red, white and blue decorations, and many residences will be bedecked as they never were before.

TRUSTEE ROESEKER RESIGNS.

Special Meeting of the Council to Take Immediate Action.

A special meeting of the common council is called for this evening to take action upon the resignation of Christian Roeseker of the board of waterworks trustees. Mr. Roeseker's reason for resigning is that he wishes to bid on the new city hall building, and as a city officer holding an elective office he is barred from so doing His term expires May next The resignation will be accepted and Henry C. Graffe, who is a popular candidate for election, will probably be appointed to fill the unexpired term.

Mr Roeseker was one of the original board of trustees, having been first elected in 1889. In 1890 he was re-elected to serve three years, and in 1888 he was again elected to serve his present term, ending next May. He has been a conscientious and valuable officer and he steps down and out with a clean record.

A MIDNIGHT RAID.

Violators of the Fish Law Placed Under Arrest While Fishing With Nets.

Eugene Hardendorf, deputy fish commissioner of Indiana, made a raid on fish poachers at midnight Saturday that will be a lasting benefit to this section of the country Violations of the fish law, especially of that section relating to the use of nets and seines, have been committed in open defiance of the law for some time past, and when this state of affairs came to the knowledge of Deputy Hardendorf, he made an emphatic vow to bring some of the poachers to justice He had his plans well Late Saturday night a vehicle conveyed Deputy Hardendorf, Constable Schlaudroff and a SENTINEL reporter to the vicinity of the "Beaver dam" southwest of the city, where after a brief recognoitre, a dozen or more men were discovered industriously engaged in catching fish from the St Mary's river by means of nets. One of the men recognized Constable Schlaudroff, and appreciating the impending danger, gave the alarm, giving the party an opportunity to escape. But two of the men were arrested—George Bruner and ——— Riley.

These prisoners were brought to the city and Justice Ryan was aroused from his bed to have the law satisfied even at the sacrifice of his peaceful slumbers. It was in his office at midnight that the two prisoners pleaded guilty to the offense of fishing with nets and were fined $5 and costs each, the costs in each case amounting to $20.

Constable Schlaudroff shrewdly suggested another trip to the same place, being of the opinion that the poachers resumed their depredations as soon as the field was again clear At 1 o'clock the deputy and Constable Schlaudroff again, accompanied by a SENTINEL reporter, visited the Beaver dam a second time. This time every precaution was taken to avoid discovery. True to expectations the same party were fishing as if nothing happened. This time the officers made sure of their game and succeeded without difficulty in taking into custody Alfred Koehler, Julius Wagner, Sam Schramm, Paul Koehler, William Schramm, Francis Armiston and John Koehler, jr.

The trial will come off in Justice Wilkinson's court one week from today.

Mr. Hardendorf, who has undertaken the herculean task of the law, is a very pleasant and genial gentleman, who is not prosecuting his operations for financial gain. There is nothing in it for him and he does not even claim his witness fees It is in protection of fishing regulations, a cause that is upheld by every true disciple of Isaac Walton, and he will have the praises of hundreds of honest fishermen in his good work. He is the sole deputy of State Commissioner Dennis and has authority to go ahead with his laudable work in any part of the state. Mr. Hardendorf has been a traveling salesman for years and Fort Wayne has long been his home.

REV. J. V. UPDIKE

Preaches to an Immense Audience at the Masonic Temple.

The success of Rev. J V Updike, the new pastor of the Christian church, in drawing crowds to the Sunday evening services at that edifice has been so great that it has been found impossible to find room for them in their audience room. For that reason the public services were held last night at the Masonic Temple opera house and every seat, both below and in the gallery, was occupied, notwithstanding the rainy night.

Mr. Hawes, the singing evangelist, led the singing with the excellent choir from the Christian church and contributed much to the interest of the evening. Rev. Updike spoke on the theme "What Must I Do to Be Saved?" and the sermon was an earnest and elegant one, holding the large audience interestedly for an hour.

He is a man of sterling abilities, pleasant ways and his promotion is but a stepping stone to higher honors. His friends will be glad to hear of his success

Is It Fair for the Others?

To the Editor of the SENTINEL:

With all kindness to the Cleveland club, is it wise and fair for them only a short time before the state convention, to pick out one of the four candidates for governor and invite him here for a public demonstration without inviting either of the other candidates? This is not the usual plan of fairness adopted by the democracy of Fort Wayne. Let us treat all candidates fairly, honestly and just. We have no objections to Messrs Bergdoff and Moynihan boosting their candidate, but let them do it in a straight forward, upright and honorable manner.

JACKSON DEMOCRAT.

Mr. W. H. Harris

In the spring of last year I took on physician, Mr. Harris, of Fort Wayne, Ind., and I feel that I owe my life to the care I received from him. He says: "My wife was for several years in bad health. She was very much troubled with Female complaint, which had reduced her very low. She was advised to take Hood's Sarsaparilla, she took one bottle and it relieved her very much. She has taken three bottles and is now in good health. I can recommend Hood's Sarsaparilla to all who are troubled with female complaints."

Mr. Martin Rudolph, Farmer, Fairfield, Baltimore Md., says:

"Farmer 2 years—had a rupture.

Complication of Diseases

Had the usual effect—cured me. Rheumatism, Blood poor, eyes gone, bowels out of order and I was **miserable in mind and body.** Hood's Sarsaparilla cured me. Improved by the first dose. Regained strength, thought I was 50. Look like 25 years of age. Hood's Sarsaparilla makes me feel like a boy. Hands do work. Head clear, and no trouble at all. I found myself cured."

A New Woman

I will plead my case briefly, as I have proved to me that Hood's Sarsaparilla is doing the blood which Hood's Sarsaparilla is perfection to me. I am **Constitution Treatment,** and I can say I am now away with all **Local Treatment** as I can do this case with what I have taken with it." Try it.

A Rumor That Supt. E. D. Casanave Will be Advanced—Railroad and Shop Items.

A gentleman well informed in railway matters, who has just returned from Philadelphia, stated to a SENTINEL reporter this morning that an important change in officials is about to occur on the Pennsylvania. In eastern railway circles a well-founded rumor, according to our informant, is in circulation to the effect that Theodore N. Ely, general superintendent of motive power of the Pennsylvania railroad, will retire from that position April 15 to accept the fourth vice presidency of the company. Mr Ely will be succeeded by E. D. Casanave, now superintendent of motive power of the Pittsburg, Fort Wayne and Chicago railroad. A few weeks ago Mr Casanave was tendered the general superintendency of motive power of the Philadelphia and Reading railway with a salary of $10,000, but declined, much to the surprise of his friends. It is now believed that Mr. Casanave at that time was also tendered Mr. Ely's position, which has attached to it a $12,000 salary, and for this reason he declined the Reading offer. His appointment to the position would indeed be a most excellent one. Mr. Casanave is one of the foremost railroad men of the country and is worthy and capable to fill any position in railway life. His headquarters would be in Altoona. Mr. Casanave has resided in this city for ten years and enjoys the esteem and confidence of all.

LOVELY LADIES TALK.

The Successful Meeting of Sorosis Society.

A Frank and Open Discussion of the Most Important Question Which Can Concern Any Woman.

An intensely interesting meeting of the Sorosis Society was held on Monday, when the preparation of women for wifehood and motherhood was fully discussed Mrs. Ada M. Brown, who presided, among other things said:

"Woman's function in the world is determined by nature—she is made to be the mother of the race. Physiologically we must take into consideration that she may become a wife and a mother, though practically we ignore it. It is a mistake then to train girls precisely like boys No true womanly woman wishes to be a man, she is quite satisfied to be a good specimen of her own sex."

Mrs. Doane spoke strongly and lamented the false modesty which forbade mothers facing squarely the true and needful education of their daughters She advocated the special teaching of girls in public schools on matters of hygiene and physiology as they are taught in the colleges. "Life demands much more of our girls than it does of our boys," she said, "and we should recognize it. The schools educate our girls but ignore the fact that the happiness or misery of the coming generations lies in the hands of girls who, with all their learning, are ignorant of the vital principles which underlie the glory of wifehood and womanhood."

In how many hundreds of cases has disease, "like a worm in the bud," fed upon the damask cheek of some lovely woman who might have been well, who might have been happy had she only known the real cause and the simple and certain means of relief.

In this connection the valuable works of Mrs Kendall came with marvellous force. She said:

"A few days go I received a call from a charming lady, who stated that she was suffering, and wished to know if I could in any way aid her. There is no doubt that thousands of women are suffering today from similar troubles who do not realize the danger nor recognize their cause so nearly as this lady did. She felt peevish, restless, blue. She had headache, backache, cold feet and sinking sensations. Her complexion was sallow; her appetite fickle I knew the cause and I am happy to state that I was able to afford relief. I feel it my privilege today to state that I believe there is a means whereby women who are suffering can obtain complete relief, and those who are in health be continued in its enjoyment. A few years ago, a prominent and wealthy gentleman residing in Rochester, N. Y., was given up to die By means of a simple and purely vege table remedy he was restored to perfect health. So efficient did this remedy prove in the case of many well-known men, that it began also to be used by ladies, and today thousands of women in all parts of the land owe their restored health and continued happiness to the wonderful power of Warner's Safe Cure. This great remedy has been a godsend to hundreds of ladies who I know, and I rejoice to think how much it has accomplished in restoring happiness and fitting women for the true enjoyment of life.

"The performance of the natural functions of womanhood and motherhood is not a disease, nor should it be so treated. If, however, the blood be impure, it is certain to produce poisonous effects in the parts with which it comes in contact, and thus causes inflammations and the innumerable ills which make the physical life of woman so hard to endure. I am aware a prejudice exists against proprietary medicines, and that such prejudice is too often well founded, but we should discriminate—not condemn all because some are inefficient. The merits of Warner's Safe Cure have been proved beyond a doubt, because they deal directly with the causes of all female troubles.

"The able and brilliant ladies who comprise the Sorosis society are doing a grand work in agitating this important subject The future strength and happiness of the race depends upon the condition of women. If they are healthy, bright and vigorous, America will advance even more than it has in the past. If, on the other hand, the wives and mothers of the land are weak, morbid and sickly, little can be hoped for either the future prominence or power of this nation. If ladies will realize this and act accordingly the effect will be felt through future generations."

They have just opened the doors of Johns Hopkins college to females Singularly, the first girl to get in was a Ladd.

"What, you coughing yet my friend?" "Of course! My cold is no better." Well, don't stand on the order of going, but go to the druggist and get a bottle of Dr. Bull's Cough Syrup, quick." He went, and he was straight way made happy

For burns, scalds and other wounds Salvation Oil has proved itself to be the best remedy ever used. All druggists sell it for 25 cents a bottle.

Frank Newbauer, of Garrett, fell off a work train, losing an arm.

Mr J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the north ern part of that state during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and that in a short time he was breathing quite easily. He kept on taking the medicine and the next day was able to come to Des Moines Mr. Blaize regards his cure as simply wonderful. Fifty cent bottles for sale by druggists

He resumed railroading after the war and subsequently embarked in mercantile pursuits at Monroeville, this county. Later he entered the service of the Wabash railroad and was passenger brakeman running on the accommodation between this city and Lafayette. The remains were interred at Huntington Sunday, his birthplace. He has many friends in this city.

Col. James Geary returned last evening from Grand Rapids, where he has closed the museum and theater which he has conducted in that city for some time past. In speaking of his leaving, the Grand Rapids Morning Press says: "James Geary came to this city a comparative stranger, and by his energy, integrity and affability, soon established himself, not only in the hearts of his patrons, but with those with whom he came in contact in a social or business way. In his withdrawing from the theatrical arena, for the time being, hundreds of laboring men, their wives, children and sisters, will lose a friend who has not only provided them with excellent entertainments, but has lavished upon the poor and needy money and luxuries in such a generous way that it has had no precedent in the annals of theatrical management in this city."

The funeral of Mrs. Otilia Roth, aged sixty years, who died of dropsy at the home of her brother, Rudolph Stenson, 24 East Jefferson street, took place this afternoon from St. Paul's Lutheran church.

A number of Lutheran children will be confirmed next Sunday—fifty seven from the Emanuel church, seventy-five from St. Paul's and twenty nine from Zion's. They all passed an examination yesterday.

Samuel C. Henderson has purchased, through W. V. Douglas, the handsome residence property of F. H. Poole, situated on West Creighton avenue. Mr. Poole, who is connected with the Hamilton bank, will purchase other property.

Conductor W. A. Robison, of the Pennsylvania, will leave this evening on an extended tour of the west and south. The trip is undertaken with a view of restoring Mr. Robinson's health. He will visit Alabama, Tennessee, Texas and Mexico during his absence.

A sensation of considerable magnitude has just been discovered at Wabash. During the past winter Miss Mame Croft, about eighteen, whose parents live just outside that city and are most highly respected, formed the acquaintance of Frank Rohrig, a young clerk in the office of the car accountant of the Big Four railroad. They were secretly married at Niles, Mich., nearly three weeks ago, and the fact has just become known. Rohrig has been transferred to Indianapolis, and it has been intimated that he will not return to Wabash. The girl is the youngest daughter, and her parents, who are wealthy, have never seen their new son-in-law.

Pneumatic Bicycle Tires.

An article appeared in the journal yesterday morning stating that a local bicycle dealer was exhibiting a section of a pneumatic tire as used on Columbia and Hartford bicycles, and it not being genuine. I have the section with rim, also a letter stating that it is a Columbia pneumatic, and I am willing to compare. The pneumatic tire is the talking point this year and I have several styles showing where so-called pneumatics are inferior to genuine pneumatic. Yours truly,

A. B. WHITE.

P. S.—Who first said the following changes that have taken place on bicycles were not practical? A closed head Tangent spokes, drop handle bars, spade handles, a safety bicycle, a diamond frame, a cushion tire, a pneumatic tire and hollow rims. The above question can be answered by the dealer, who has the "oldest, best equipped and only practically conducted bicycle establishment in the city." It takes some people years to learn anything.

LOYALTY TO HOME INTERESTS!

Loyalty to friends, home, city or country has always been a highly esteemed trait of character.

Disloyalty to any of these rightly subjects the offender to the censure of society.

The growth of a city depends immensely upon the loyalty of its citizens to home interests.

The money you spend out of Fort Wayne, in Chicago or elsewhere, builds up those cities to just the extent of the injury you inflict upon your own.

In a city where one of our stores is located, a public spirited citizen was recently heard to say, "I am so particular to spend every dollar at home, that I make it a rule not even to get my hair cut when temporarily out of town, because I feel the quarter it would cost should go to home barbers."

In contrast with that sentiment was this remark of a lady of the same city: "I purchase hardly anything at home. Twice a year I go to Chicago and buy what I want."

It gave a malicious satisfaction to the merchants of that city to know that, by common consent, that woman's family was the most ill dressed of any family in town, making any pretensions to elegance and taste.

An excellent customer at one of our stores saw a handsome center table and asked us the price. She was told it was $20. A little further along in the row she found another and inquired the price of that also. She was told $18. "I'm a fool," was the rather startling rejoinder. I was up in Chicago the other day, and thinking that I wanted a table handsomer than any I could get at home, purchased one. Now here I find the very two tables between which I made choice at Chicago, and the price on each $2.00 less here than there with freight, beside, to pay upon my out-of-town table."

Whatever you want, either in Furniture or Carpets, be sure you can get at home cheaper and better than in the large cities where dealers are handicapped by immense expense.
